

Batuta Academy FREE Career Night Registration Form

Every THURSDAY 6.00 pm -7:30 pm - JOIN US!

Please fax completed registration form to: (630) 827-2600

The career night is a valuable session packed with presentations and information for anyone interested to change their career or advance in the area of information technology, especially IT security for both Network and Wireless Security and (HIT) Health Information Technology.

This career night also benefits individuals who are interested in utilizing their existing skills in information technology and advancing in the field of Information Security. This is a brief but high-level introduction to key areas in Information Security and road map on how to achieve SCNP (Security Certified Network Professional), Wireless Security (CWNA Certified Wireless Network Administrator), and other high demand certifications.

Join the Wi-Fi Revolution...

This briefing also introduces you at a high level to key HIPAA legislation, its compliance requirements, compliance timelines, and opportunities for achieving organizational compliance. Participants learn who should be involved in security and privacy requirements and how it affects an organization's business processes.
